Free The Power Of Citrus, Light Duty To Heavy Duty Cleaners

Citrus Cleaners combine the natural high solvency of the citrus solvent (D-Limonene) with either mineral spirits or water based detergents to create a family of uniquely powerful cleaners.

The solvent blended **Citrus Cleaners** are generally used to clean stubborn grease and oil from machinery and parts. The cleaners with the highest percentage of citrus solvent do a good job stripping paint. Due to the high solvency of these solvent blends, irritation is a concern. Always wear appropriate safety equipment.

The water based **Citrus Cleaner** concentrates are designed to be used diluted in water 2-10% to clean off milder accumulations of dirt, grease and oil. The concentration can be adjusted to achieve the desired result.
