### *Bio-Stable Semi-Synthetic Coolants For Ultimate Sump Life*

**Delta #900** series of coolants are designed to provide the ultimate in sump life, keeping machines fresh and productive much longer than conventional coolants. Operational flexibility is maximized because these coolants are compatible with aluminum, steel and copper alloys.

**Delta #900** series coolants contain an exceptionally high level of oil to augment extreme pressure additives in order to deliver excellent lubricity tailored to your specific application. Chlorinated and non-chlorinated versions are available.

**Delta #985** does not contain sodium or chlorine, making it completely suitable for titanium machining.

<b>Chlorine</b>	No	Yes
<b>Fat</b>	Yes	Yes

#### *Why Delta?*

*Glad you asked. The Greek letter Delta is a triangle, a two dimensional representation of the three dimensional pyramid. What better symbol for everlasting coolants than the everlasting pyramids of Egypt?*

*Thank you for your business. Let us know if we can be of further assistance.*
