Solutions@MullenOil.com

Saves Time, Energy, Money...And Knuckles

Saver is designed to be the most versatile lubricant available. **Saver** may be applied to all metallic surfaces as a penetrating oil, wire rope dressing or chain and cable fluid. By refusing to compromise, **Saver** offers several advantages:

*Exceptional Solvency
Excellent Penetrating Power
Outstanding Load Carrying Ability
Superior Rust Protection*

Saver can be used to soak heavily soiled parts, as passive solvents will penetrate, clean and loosen some of the worst linkages and rusty bolts.

Saver is available in convenient aerosol or economical bulk packaging.
