### *Heavy Duty Cutting Oils*

**EEZ Products Thread Cut** series of cutting oils are designed for heavy duty machining of ferrous and nonferrous metals. In addition, both oils can be used as an additive to beef up lighter duty oils.

**EEZ Products Thread Cut** oils are blended from premium Group II oils to reduce smoking and misting common to lower quality oils. These oils possess flash points of 390 F, reducing fire risk and maximizing shop safety.

**EEZ Products Thread Cut Extra Premium** is heavily fortified with two different types of sulfur along with vegetable oil for added lubricity. **Thread Cut Extra Premium** should only be used on steel.

**EEZ Products Thread Cut Premium** is blended using chlorine and vegetable oil to provide a rich gold fluid suitable for most machining on the widest range of metals.
