Premium Lubricants To Prevent Stick/Slip

#800 Way Oils are designed to lubricate machine ways and slideways and prevent the stick-slip which causes chattering.

#800 Way Oils are very resistant to water wash-off by synthetic coolants, semi-synthetic coolants and water soluble oils. These oils also provide excellent wetting ability, extreme pressure properties and mild adhesiveness.

#800 Way Oils contain an exceptionally low level of wax inherent in the base oils. Combined with added detergent additives, these products are ideal for use in Bijur lubricating systems.

Most Popular Products -> #858 Way Oil (=Vactra 2)
#865 Way Oil (=Vactra 4)
