## SHURCOOL #700

*Bio-Stable  
Synthetic Coolants*

**Mullen  
Circle Brand  
Blended Products:**

*Cutting Oils  
Circle Cut #729  
Soluble Oils  
Synthetic Coolants*

*Semi-Synthetic Coolants  
Rust Preventives  
Cleaners  
Grease*

*Hydraulic Oil  
Compressor Oil  
Gear Oil  
Way Oil*

*Spindle Oil  
Machine Oil  
Synthetic Oil*

**Made In U.S.A.**

### *Bio-Stable Synthetic Coolants*

**Shurcool #700** synthetic coolant concentrates are designed for machining ferrous and nonferrous metals. Applications include Grinding, Drilling, Milling, Tapping, Threading and Broaching.

**Shurcool #700** coolants are blended to be bio-stable, so bacteria and fungi will not be able to degrade the coolant. This dramatically extends the coolant tank life. In addition, these coolants are completely oil rejecting, making it easy to skim any tramp oil entering the coolant tank.

**Shurcool #700** are truly international coolants, not containing any boron or formaldehyde releasing biocides.

Recommended Uses:

**Shurcool #741** -> Grinding, Including Carbide & Blanchard

**Shurcool #712/#736** -> Medium/Heavy Machining
