Bio-Stable Semi-Synthetic Coolants For Ultimate Sump Life

Shurcool #800 series of coolants are designed to provide the ultimate in sump life, keeping machines fresh and productive much longer than conventional coolants. Operational flexibility is maximized because these coolants are compatible with aluminum, steel and copper alloys.

Shurcool #800 series coolants contain an exceptionally high level of oil to augment various extreme pressure additives to deliver lubricity tailored to your specific application. Chlorinated and non-chlorinated versions are available.

Shurcool #800 series coolants all exhibit low foam, outstanding rust prevention and excellent detergency.
